

# Agenda today

1. What can we do to clear the BES prejudice before February?
2. Can nTMM kinematic mounts be borrowed for STS tests?
3. Discussion of Agenda of December 17 meeting.

Preliminary Agenda of  
ORNL-UTK-UKY Analysis meeting December 17, 2024  
Meeting room C-152 in SNS building 8600  
room will be available strictly from 9:00 am

09:00 - 12:00 Analysis January 2024 data morning session

GP MON intensity studies	Carolyn Haviland	10'
Beam intensity conclusion	James Rogers	40'
Detector counts in ROIs	Nathan Wittington	40'
Attenuation of 1 cm Silicon plate	Mubi Khan	10'
Plans for Butterfly Maps calc.	Cary Rock	10'
Plans for writing paper	Yuri Kamyshev	10'

12:00 - 13:00 Lunch

12:00 - 13:00 Lunch

13:00 - 14:00 Analysis January 2024 data afternoon session (if needed)

14:00 - 17:00 Discussion of nTMM experiment

GP-SANS installation schedule in February	John Ramsay (remotely?)	10'
Cd plates assembly	Lawrence Heilbronn	10'
Magnet current stability goal and power filter	Channing Tan	10'
Calculation of magnetic field in nTMM magnets	Mubi Khan	15'
Kentucky degaussing procedure	Andrew Mullins (remotely?)	10'
Magnetic field measurements with degaussing	Alina Moore	25'
Magnet preparation status	Shaun Vavra	10'
Shape of nTMM resonance on GP-SANS beam	Josie Hakanson	10'
Three possible analysis of nTMM data	Yuri Kamyshkov	20'
